magallanes

Captive portal for hotels

 **esferize**

Captivate your customers

What you see of a hot-spot when you access the Internet in your hotel is the tip of the iceberg of a sophisticated environment with a simple appearance.

The real difference is in what you don't see: 15 years of continuous evolution are behind us to continue to relentlessly meet the requirements of the most demanding hotel chains.

Scalable

Very lightweight design, allows almost unlimited scaling.

We personalise it for you

For your PMS, your marketing platform or whatever you have.

Confiance

Our solution with the legislation in force.

Multi-authentication

-

Magallanes® offers a multitude of alternative Internet access modes, which can be combined at will.

Decide what you want to activate and when to change it.

Hotel chain management

-

The current efficient design of Magallanes® in the cloud allows us to grow your platform without limits.

Do you have any special requirements?

-

The clear advantage of Magallanes® as a self-designed solution is that we can create your specific portal tailored to your requirements.
