

esferize magallanes

Captive portal

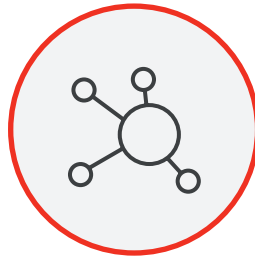

Improve your customers' experience

Esferize's Magallanes® is a modern, self-designed cloud-based Captive Portal, ideal for Internet access control and charging in hotels, shopping centres, sporting venues, transport fleets or companies.

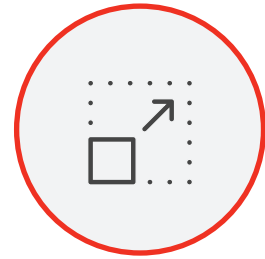

We know about this

18 years of evolutionary development of the platform.

Integration

Modular development that can be integrated with any platform.

Hyperflexible design

We customise all the parameters of the portal.

Hotels and public environments

-
A reliable, modern and fresh captive portal for your hotel chain, hospital or shopping centre. We offer it in the cloud for your convenience.

Company

-
We help you to enhance your corporate image. We ensure extra protection for your business. We simplify internet access. We know your image sells: let's put it to work.

Fleets

-
Our ultra-lightweight design makes it ideal as a captive portal for on-board systems: fleets of buses, trains or ships wishing to provide internet services, etc. A service that works seamlessly in a scenario as challenging as mobile or satellite communications.
